

# How to Measure a Room

Laura Michaels  
Interior Design

# What You'll Need

- ❖ A measuring tape
- ❖ Another person for assistance
- ❖ A pencil
- ❖ Printer paper or grid paper

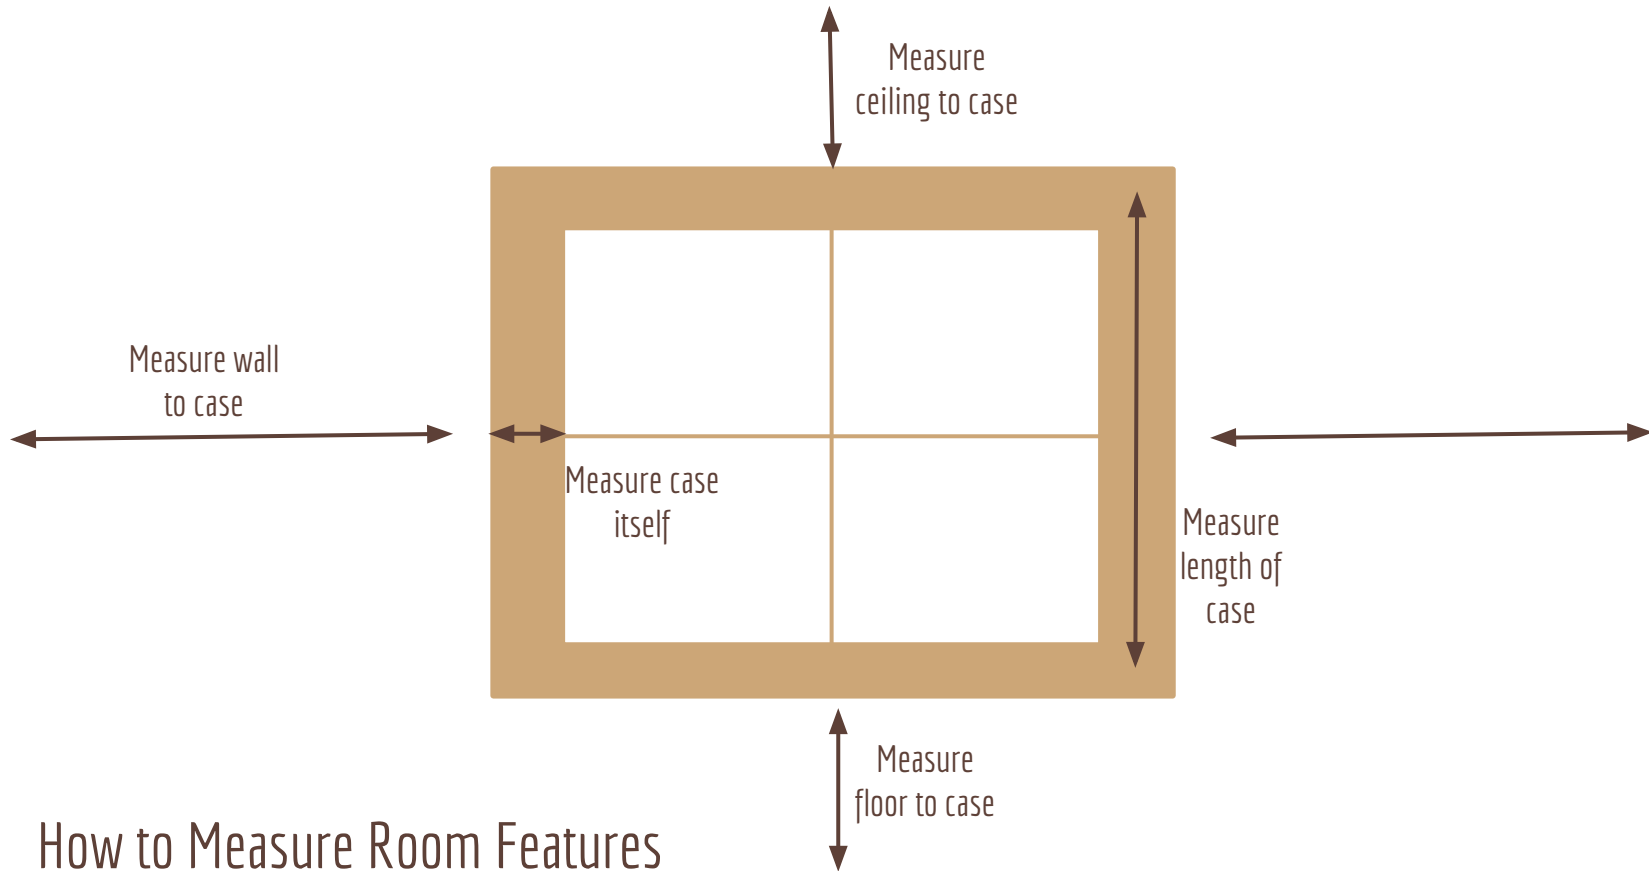

# The Basics

- ❖ Find a starting point in your room where you will start your measurements
  - ❖ Measure the height and width of each wall
  - ❖ Find the dimensions of all windows and doors from the outer edge of the case
-

# Additional Measurements

- ❖ Find the dimensions of how far a window is from the floor, the ceiling, and the walls
  - ❖ Note the location for any other distinguished room features ie. fireplace, vents
  - ❖ Measure where electrical outlets are located
  - ❖ Measure the length that the doors open
-

## How to Measure Room Features

# What Now?

- ❖ Take a picture of each of the four walls in the space
- ❖ Sketch your floor plan and write in your measurements
